REMARKS

In the Office Action mailed on June 16, 2004, the Examiner: (1) objected to the Specification because of informalities; (2) rejected claims 15 and 16 under 35 U.S.C. § 101; (3) rejected claims 1, 4, 9, 10, 12-15, 17, 18, and 20 under 35 U.S.C. 103(a) as being anticipated by Goertzel et al. (U.S. Patent No. 6,308,273) (Goertzel); (4) rejected claim 2 under 35 U.S.C. § 103(a) as being unpatentable over Goertzel in view of International Publication Number WO-98/57464 (WO-98/57464); (5) rejected claims 7 and 8 under 35 U.S.C. § 103(a) as being unpatentable over Goertzel in view of Fabbio (U.S. Patent No. 5,335,346); (6) rejected claims 3, 11, 16, and 19 under 35 U.S.C. § 103(a) as being unpatentable over Goertzel in view of Agranat et al. (U.S. Patent No. 5,519,833) (Agranat); (7) rejected claim 5 under 35 U.S.C. § 103(a) as being unpatentable over Goertzel in view of Gasser et al. (U.S. Patent No. 5,220,604) (Gasser); and (8) rejected claim 6 under 35 U.S.C. § 103(a) as being unpatentable over the combination of Goertzel and Gasser, and further in view of Agrawal et al. (U.S. Patent No. 4,825,354) (Agrawal).

Applicants' representative thanks the Examiner for granting the in-person Interview, which was held on September 8, 2004.

Applicants have not received copies of the PTO-1449 form for the information disclosure statements filed on August 8, 2003, November 5, 2003, December 24, 2003, April 6, 2004, and May 27, 2004. Applicants respectfully request that the Examiner consider the documents listed on these PTO-1449 forms and indicate so on the forms. For the convenience of the Examiner, Applicants provide additional copies of these information disclosure statements, PTO-1449 forms, and stamped return post cards. If

the Examiner needs copies of the documents, Applicants will gladly provide another set of copies.

Applicants have amended pages 1 and 2 of the Specification to update the references to other U.S. patent applications, as required by the Examiner.

Further, by this Amendment, Applicants have amended claims 1, 5, 9, 13-15, and 17-19. Applicants have canceled claim 6. Claims 1-5 and 7-20 are pending.

Concerning the rejection of claims 15 and 16 under 35 U.S.C. § 101, further to the Examiner's suggestion at the Interview, Applicants have amended claim 15. Accordingly Applicants respectfully request that the Examiner withdraw the rejection of claims 15 and 16 under 35 U.S.C. § 101.

Regarding claim 1, as further agreed upon at the Interview, the cited references, taken alone or in combination, do not teach or suggest an operating system that restricts access to the first file system entity to the nodes communicating over the first channel and that restricts access to the second file system entity to the nodes communicating over the second channel, and one of the nodes that communicates over the first channel that sends a request to access the first file system entity to the operating system, wherein the one node comprises a proc structure accessed to determine that the one communicates over the first channel. Therefore, Applicants respectfully request that the Examiner withdraw the rejection of claim 1 under 35 U.S.C. § 103(a).

Claims 2-5, 7, and 8 depend, directly or indirectly, from claim 1. Therefore, Applicants request allowance of claims 1-5, 7, and 8, as well.

Concerning claim 9, further to the agreement at the Interview, the cited references, taken alone or in combination, do not teach or suggest a method in a distributed system with a network of nodes communicating over channels, including receiving a request from one of the nodes to access a file system entity, the file system entity having an associated authorized one of the channels and determining whether the node communicates over the authorized channel, wherein the node comprises a proc structure accessed to determine that the node communicates over the authorized channel. Therefore, Applicants respectfully request that the Examiner withdraw the rejection of claim 9 under 35 U.S.C. § 103(a).

Claims 10-12 depend from claim 9. Therefore, Applicants request allowance of claims 10-12, as well.

Regarding claim 13, further to the agreement at the Interview, the cited references, taken alone or in combination, do not teach or suggest a distributed system with a network of nodes communicating over channels, including "means for receiving a request from one of the nodes to access a file system entity, the file system entity having an associated authorized one of the channels" and "means for determining whether the node communicates over the authorized channel, wherein the node comprises a proc structure accessed to determine that the node communicates over the authorized channel." Similarly, concerning claim 14, further to the agreement at the Interview, the cited references do not teach or suggest a method in a distributed system with a network having nodes communicating over channels, including "receiving a request from one of the nodes communicating over one of the channels, the request for viewing the file system," and "determining which file system entities in the file system

have an authorized channel as the one channel, wherein the one node comprises a proc structure accessed to determine that the one node communicates over the authorized channel.” Likewise, regarding claim 17, further to the agreement reached at the Interview, the cited references do not teach or suggest a computer-readable medium containing instructions for controlling a distributed system with a network of nodes communicating over channels, including “receiving a request from one of the nodes to access a file system entity, the file system entity having an associated authorized one of the channels,” and “determining whether the node communicates over the authorized channel, wherein the node comprises a proc structure accessed to determine that the node communicates over the authorized channel.” Therefore, Applicants respectfully request that the Examiner allow claims 13, 14, and 17, as well.

Claims 18-20 depend from claim 17 and hence comprise all of the features of the base claim 17. Therefore, Applicants respectfully request that the Examiner allow claims 18-20, as well.

Further, concerning claim 15, further to the agreement at the Interview, the cited references do not teach or suggest a computer-readable memory device encoded with a data structure for use by an operating system in providing channel-specific views of a file system, where the data structure has entries, and where each entry comprises an indication of a file system entity and an indication of a channel that is used by the operating system to restrict access to the file system entity to nodes that communicate over the indicated channel, and wherein each of the nodes comprises a proc structure that includes the indication of the channel that is used by the operating system to

restrict access to the file system entity. Therefore, Applicants respectfully request that the Examiner withdraw the rejection of claim 15 under 35 U.S.C. § 103(a).

Claim 16 depends from claim 15 and hence comprises all of the features of the base claim 15. Therefore, Applicants respectfully request that the Examiner withdraw the rejection of claim 16 under 35 U.S.C. § 103(a) for at least the reasons given above with respect to claim 15.

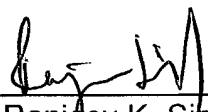

In view of the foregoing amendments and remarks, Applicants respectfully request reconsideration and reexamination of this application and the timely allowance of the pending claims.

Please grant any extensions of time required to enter this response and charge any additional required fees to our deposit account 06-0916.

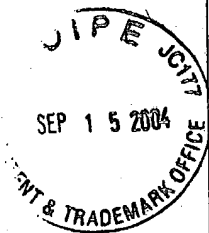

Respectfully submitted,
